ally

Ally - An Accessibility Testing Tool

How to Install?

Below are the 3 options to activate Ally plugin:

Option 1- .crx file (Ally_crx.zip)

- Go to chrome address bar & type > "chrome://extensions/"
- Extract attached zip file & drop the "Ally.crx" inside extension window.
- You can see the "Accessibility Testing Tool" icon available in browser toolbar at the top.
- Open any html page in browser window & open "Ally" tab in developer tools then click on "Analyze" button.

Requirement: Chrome Browser

Option 2- src files (Ally_src.zip)

- Extract attached zip file.
- Go to chrome address bar & type > "chrome://extensions/"
- Check "Developer Mode" checkbox and choose "Load unpacked extension".
- Provide extracted path of "Ally" folder.
- You can see the "Accessibility Testing Tool" icon available in browser's toolbar at the top.
- Open any html page in browser window & open "Ally" tab in developer tools then click on "Analyze" button.

Requirement: Chrome Browser

Option 3- Ally SDK (Ally_src.zip)

- Extract attached zip file to the root folder of your development workspace.
- Add following script tag in your html file just before closing "body" tag.
  `<script type="text/javascript" src="/Ally/scripts/app.min.js"></script>`
- Open html page in browser window & you can see "Ally" at bottom of browser window.

Requirement: Chrome, Mozilla Firefox, Safari (Mac), IE 9+ browsers
